# A Step Higher in Quality's Store.

We know that Dothan is a city of refinement and good taste-willing to reflect the progress of the city and times in the "up-to-the minute" merchandise and styles.

So strong is this belief of ours that we have gone a step farther in qualities scale in catering to good taste with high class materials

Not only have we prepared to fu nish you with all the medium and popular priced goods and furnishings, characterized by correctness in quality of material and finish, but we have searched the markets and brought to Dothan what we believe the people want In quality merchandise.

Realizing there would be a scarcity of desirable materials, owing to the unsettled conditions that exsted for the past six months in manufacturing centers, we placed our orders early, we went to market early -we got in on the ground floor, which enables us to offer assortments and values that existed before the sharp advance took place,
